

FOR IMMEDIATE RELEASE:
LINCOLN, MA July 15th, 2004

IMPACT Technology Consultants has now officially opened its process research and development laboratory, located at 88 Jackson Road, Devens, MA. IMPACT is using the laboratory, with up to 2500 sq. ft of space available, to conduct process research, scale-up & development, and equipment application experiments for clients.

Dr. Mark A. Wilkinson, President of IMPACT, previously commented, "We are pleased to offer these additional capabilities to our clients. Over the years, we have received many requests to provide laboratory facilities to complement our process development consulting services. This laboratory will allow us to better serve our clients by effectively expanding their laboratory space on an as-needed basis and providing access to specialized equipment and expertise."

The facility is now equipped for small to mid-scale development activities that target chemical and pharmaceutical technology development, scale-up, troubleshooting, and optimization; including reaction kinetics, mixing, separations, fluid dynamics, heat transfer, materials testing, and automation. The laboratory also has access to quick and efficient onsite analytical capabilities.

For more information or to request a quotation, please contact William Cox at 508-951-2436 or email at bc Cox@impact-tc.com.

About IMPACT Technology Consultants

IMPACT is a team of experienced, advanced-degree chemical engineers with extensive backgrounds in chemical and pharmaceutical process technology development, scale-up, commissioning, and optimization. IMPACT's primary mission is to provide process development and engineering assistance to specialty chemical, biotechnology, metallurgical, pharmaceutical, and equipment/device companies. Our hands-on, operational approach combines our technical knowledge and experience with structured work processes and rigorous documentation to build institutional knowledge and provide bottom-line results to our clients.
